STATEMENT OF REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The claims in their present amended forms have overcome the 35 U.S.C. 112, first and second paragraph rejection, and the prior art of record because none of them teaches, discloses or suggests a process for manufacturing detergents or detergent components as a product in granulate or agglomerate form in an essentially horizontally oriented fluidized bed in the manner as those recited, in particular the step of supplying process air to the different process steps from beneath the fluidizing space wherein a different process air stream is provided to the fluidizing space by each of at least two chambers in an air inflow area beneath the fluidizing space. Each of Bauer in view of Meyer, and Becker, the close prior art of record, fails to teach a different process air stream provided to the fluidizing space by each of at least two chambers in an air inflow area beneath the fluidizing space. Accordingly, the subject matter, as a whole, would not have been obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
